

# **THE WARREN PHILOSOPHY**

**The Warren has a philosophy which everyone who uses the building agrees to abide by. It is displayed around the building as 'The Warren- How We Work'. This is it:**

**The Warren is a community resource centre for 16-25 year olds.**

**The Warren works because of the support we give each other and the commitment we have to our way of working.**

**1. This is your centre, please take responsibility for your actions and the use of its resources.**

**2. Everyone is entitled to respect as an individual and The Warren is actively against all forms of discrimination, such as racism, sexism and homophobia.**

**3. We accept people for who they are; we are not interested in judging or labelling anyone.**

**4. Drugs and alcohol are not allowed in the building.**

**5. Violence or any other form of intimidation is totally unacceptable.**

**6. The Warren is a neutral territory, that is, everyone has equal rights, and can be expected to be treated with tolerance.**

**7. Everyone has the right of access to our activities and can choose to be involved in our decision making process such as The Thing (The Warren's Parliament)**

***If you would like an explanation of any of the points above please ask any member of staff.***
